

Vari Flow Dripper

Take The Control In Your Hand

Features & Benefits

Adjustable Flow

Easy to adjust according to changing crops and crop water requirement .

Flow Adjustment from 0 to 100 lph

Complete shut off possible when water is not needed. Maximum flow at 1kg/cm² pressure on full opening is 100 lph. Can also be used for lower pressure.

Simple Two Piece Take Apart Construction

Two piece design facilitates ease of maintenance.

Protected Outlet

Protected outlet prevents entrance of sand/soil in desert/sandy soil conditions.

Applications

- Suitable for trees having high water requirement.
- Recommended for sandy soils / desert conditions.
